SCALE — 1 inch = 800 feet

EXPLANATORY NOTES.

The original plan of Tallahassee embraced one quarter section of Land of 160 Acres the Square is designated by the letter E.

Congress afterwards reserved for the use of the City the quarter sections designated by the capital letters B.C.D.H M and N.

The Square A belongs to E. Doyle the Square F to General Lafayette but he has promised it to the City Corporation the Square G to Governor Duval the Square I to J.G. Searcy and R.D. Harris the Square K to Gen. Call making the City two Miles long and one and an half broad.

Squares E.B.D have been sold part of G and H have also been sold and the balance will soon be offered for sale; the half Square I will also be shortly offered for sale.

The figures opposite the Streets &c. designate their respective widths in Feet.

Entered according to Act of Congress the 24th day of September 1829 by Fielding Lucas Jr. of the State of Maryland.
