This is a heavy and well-built French black marble Mantle Clock dating from the 1890s. It features fancy carved engravings in the marble and a beautiful porcelain dial. The case measures 9" high x 14-3/4" long x 6-1/2" wide. The dial is 6" in diameter. The original French 8-day movement has just had a complete servicing (cleaning and time adjustment) and is running excellent and keeping very accurate time.

Item ID: WNS-CLK-152
