WNS-CLK-128 - Custom Oak Case made in NM - 8-day German Movement - Bottom View

Here is a very nicely custom built solid oak wood wall clock. It measures 38" high x 16-1/2" wide x 7-1/2" deep.

It has a German made 8-day time and strike movement. The custom built solid oak case features very ornate designs with a free swinging out of the bottom of the case brass bob pendulum.

The person I purchased this clock from told me that is was custom built in New Mexico in the 1970s.
