

Eric Edelhausen - Gold Skeleton Watch (Model Dorado Ref – 818-005) - 21 Jewels Automatic Movement Wristwatch

Case: 38 mm across by 45 mm lug to lug - Heavy Well-Constructed Gold Plated Stainless Steel Construction. Crown at the 3 o'clock position. The screw on rear case features a skeleton back (see through) design and is marked All Stainless Steel, Legacy Timepieces, Eric Edelhausen, 3 ATM Water Resistant.

Dial: Beautiful and Sophisticated Skeleton Design with engraved plates and a black outer ring featuring Roman Numerals.

Movement: 21 Jewel Automatic.

Band/Strap: 20 mm Genuine Leather with Stitching around the edges, Black Crocodile Patterned, Marked Eric Edelhausen, and a gold toned push button locking clasp buckle.

Comments: Watch the wonders of a wristwatch movement in action -- this super nice and complicated wristwatch looks and works super. It is a large and very desirable piece that comes in a beautiful black wooded presentation box with chrome trim.

Excellent new timepiece in great overall mechanical and cosmetic condition (running fine.)
