

## New Haven - Solid Mahogany - 'Square Picture Frame' 8-Day Wall Clock - (circa 1930s)

Here is a fully restored New Haven 'Square Picture Frame' Wall Clock. It measures 14-<sup>1</sup>/<sub>4</sub>" x 14-<sup>1</sup>/<sub>4</sub>" x 4" wide. The dial is a replaced replica of the original that is signed 'New Haven' and Made in the U.S.A. The brass bob pendulum swings freely inside the case, and there is a hinged door in the the bottom of the case that is grooved so that the pendulum can swing freely even when the door is latched. The movement is a brass eight day signed New Haven (time only with no striking). The case is constructed from solid mahogany wood.
