WNS-MDN-5030 - Jostens - World Globe Dial - Movement View

Case: The case is gold toned metal with a brushed finished top bezel section and the sides are smooth. The gold toned baton style hour and minute hands have white central sections and the sweeping seconds hand is solid gold toned. The rear case is marked Automatic, Stainless Steel Back, Base Metal, Swiss Made and Josten's. The case measures 34 mm across (36 mm including the crown) and 40 mm lug to lug.

Dial: The dial features a centrally located World Globe that is surrounded by 4 circles of varying thickness with a gold metallic finished outer ring and a 60 seconds/minutes track along the outer edge.

Movement: The automatic movement is marked unadjusted, Josten's, Seventeen Jewels, and Swiss. This is a very nice gold coordinated, well made (Swiss), excellent working wristwatch.

Bracelet: The original strap is brown finished with a crocodile patterned and marked Genuine Leather and Josten's with a gold toned buckle.

Comments: This is a near mint Swiss made wristwatch for Josten's jewelers.
