WNS-MDN-5018 - Seiko - 7T32-7F89 - Front Right View

Case: Round and heavy stainless steel case measuring 41 mm diameter (44 with the crown). A rotating bezel for timing dives. One main crown at the 3 o'clock position and four push crowns to control the chronograph functions.
Dial: Black background featuring three sub-dials (Alarm, Minute Timer and perpetual moving seconds hand. The rotating bezel is marked 10, 20, 30, 40 and 50) It has silver hour markers and large luminous hour and minute hands. It is marked Seiko, Chronograph, Water Resist 100M. A day and date window is at the 3 o'clock.

Movement: Seiko Quartz movement.

Bracelet: Stainless steel double locking bracelet.

Comments: A big Seiko sophisticated Pilot Chronograph wristwatch. [I have worn this watch more times - (thousands of times) - since I first purchased it new at a Sears department store back in 1999 - these Seiko's are a true everyday workhorse and the best buy for your money in my opinion...guess what - it is still super accurate and I would not hesitate to wear it to any occasion.]
